Transaction URL: <https://bscscan.com/tx/0x4dc1127f91d95d81ed2c66e22eade0c1048f397f2a4c4883f37805cb3c2c29cb>

Supply Count: *1,800,000,000 total (9 decimals)*

On this date of creation it was estimated that 1.8 billion people around the world have "inadequate shelter" so this number was picked as a starting token supply count.

Blockchain Platform: *Binance*

During my research crypto crashed and I felt this was the time to create City Of Gold (COG). At this point there weren't many blockchain platforms available for token creation; The Binance smart chain and the Ethereum networks. Ethereum gas prices are unreasonable for daily business transactions so I picked the Binance blockchain platform.

Conceptualization & Research:

My background is in database & web design, music & event production, real estate, investing and activism. After investments at the beginning of 2021 in Doge coin crypto currency did very well I had the thought to use the concept of crypto currency to help bring an end to homelessness internationally. Upon concept inception I started researching all cryptos I could find from internationally traded bitcoin to independent tokens. I researched crypto white papers, algorithms, centralized and decentralized forms of exchange, legal recommendations and other blockchain concepts.

15% Total Transaction Slippage: *every transaction*

Burn Fee: *2%*

2% of every transaction is "burned" or "subtracted" from the total supply count. As tokens are burned the remaining tokens increase value. The burn symbolizes as the supply count diminishes so will homelessness.

Holder Split Fee: *5%*

5% of every transaction is redistributed proportionally between all current holder wallets. Automatic LP across all exchanges included in holder split secures the volume of City Of Gold (COG) tokens along with exchange pairing option availability.

Housing Fee: *8%*

8% of every transaction is sent to the creator wallet. This fee to be used to obtain no and low income permanent housing solutions in conjunction with partnerships in; Governments, Non-Profit Organizations, Housing Development, Commercial Housing, Material Suppliers, Blockchain Technology, Marketing and Business Support.

Partnership Development:

Government & Non-Profit Organizations: The first partnerships H4U Co. is pursuing are with the city of Denver Colorado and Colorado Coalition For The Homeless. The main requirement being ease of use in transactions. Government & NGO partnerships will not be easily accomplished until listed on top tier centralized exchanges. Example crypto.com, Binance or a decentralized exchange that accepts credit cards. Customers need to complete the sale in one transaction. New government and NGO partnerships to be announced.

Partnership Development: continued

Blockchain Technology: *Entry Level Centralized Exchanges:* [IndoEX](#), [AZBit](#).
Decentralized Exchanges: [PancakeSwap](#), [PinkSwap](#), [AutoShark](#), [ApeSwap](#), [BabySwap](#),
[CafeSwap](#), [EmpireDEX](#), [JetSwap](#), [PadSwap](#), [PantherSwap](#), [SushiSwap](#), [DODOex](#),
[HyperJump](#), [KokomoSwap](#), [Many Swap](#), [MDEX](#), [Shibancelnu](#), [Shibanova](#), [Walnut Swap](#). Join any pairing's LP! New blockchain partnerships to be announced.

Marketing Support: H4U Co. has partnered with world renowned event promoter Feyline Enterprises, LLC. Feyline will bring marketing partnerships with musicians and events for promotions worldwide. As H4U Co. forms new partnerships with cities, counties, countries, housing developers, material suppliers and exchanges, Feyline will reach out to international and local musicians creating promotional launch events. New marketing partnerships and efforts to be announced.

Business Support: Support resources as necessary. Partnerships to be announced.

Housing Developers & Material Suppliers: As partnerships with governments and NGO's develop so will partnerships with housing developers and material suppliers. To be announced.

Exchange Pairing Options:

BTC / ETH / BNB / USDT / BUSD / VAI / CAKE / TKO / XVS / DOGE / SAFEMOON /
PinkE / PinkS / SAFEHOLD / FINS / JAWS / Banana / INFO / BABY / BREW / MOCHA /
EmpireDEX / WINGS / PAD / TOAD / PANTHER / Sushi /
